GANGA BASIN & ACTION PLAN

NAMAMI GANGE PROGRAMME

Madhya Pradesh

Strategic overview of basin profile, sewerage gap and proposed investments

Based on the provided Ganga Basin MP Profile

1. Ganga Basin — Madhya Pradesh

Basin profile and demographic outlook

34 DISTRICTS

283 Urban Local Bodies

68 MAJOR TOWNS

16 Municipal Corporations

51 Municipal Councils

11 MAJOR RIVERS

Shipra, Chambal, Betwa, Sindh, Parbati, Kali Sindh, Dhasan, Ken, Gambhir, Tons, Sone

POPULATION 2025

2,40,79,921

≈ 2.41 crore

Population projections in the source document

Year	2025	2040	2055
Population	2,40,79,921	4,81,59,842	7,22,39,763

PLANNING IMPLICATION

Long-term sewerage, pollution control and river-basin management needs will rise with the projected population.

2. Major Rivers nd Basin Connectivity

River lengths and receiving rivers as listed in the source document

River	Approx. length in MP (km)	Merging into
Chambal	711.42	Yamuna
Betwa	403.57	Yamuna
Sindh	512.12	Yamuna
Ken	335.92	Yamuna
Tons	102.39	Ganga
Sone	451.25	Ganga
Shipra	214.24	Chambal
Kali Sindh	245.98	Chambal
Dhasan	323.71	Betwa
Parbati	375.22	Chambal
Gambhir	139.91	Shipra

GROUP A — DIRECT CONNECTION

Chambal, Betwa, Sindh, Ken, Tons and Sone are listed as directly merging into Yamuna or Ganga.

GROUP B — VIA TRIBUTARIES

Shipra, Kali Sindh, Dhasan, Parbati and Gambhir connect through other rivers, as described in the source.

PLANNING PRIORITY

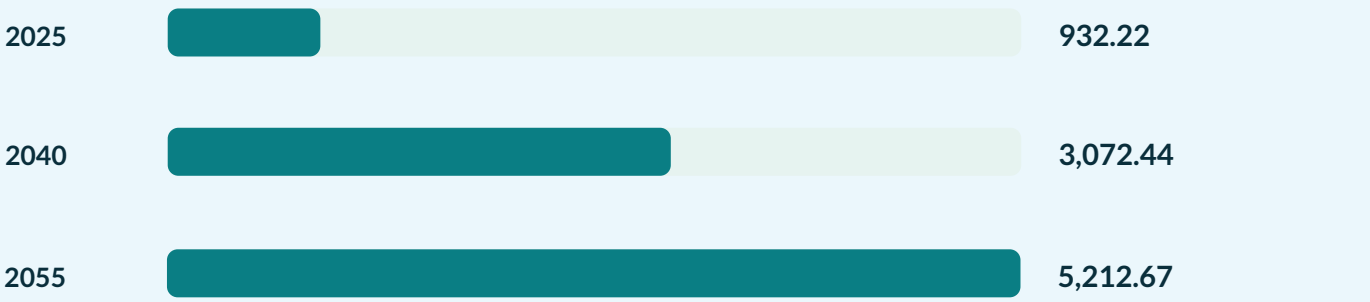

Coordinate river action plans across connected catchments and receiving rivers.

3. Sewerage insfrastructure: Demand & Gap

Source estimates for 2025, 2040 and 2055

PARAMETER	2025	2040	2055
Population	2,40,79,921	4,81,59,842	7,22,39,763
Water demand	2,407.99	4,815.98	7,223.97
Sewage generation (80%)	1,926.39	3,852.78	5,779.18
Total incl. 11% factor	2,140.22	4,280.44	6,420.67
Facilities available	1,208	—	—
Infrastructure gap	932.22	3,072.44	5,212.67

INFRASTRUCTURE GAP (MLD)

TECHNICAL NOTE

The source reports a rising gap. Validate assumptions and projections before final project costing.

4. Proposed Investment Requirements

Amounts reproduced from the provided source document

Total proposed Fund Demand

29,064.41 CRORE

SEWERAGE INFRASTRUCTURE

23,114.41 Cr

OTHER RIVER ACTIONS

5,950 Cr

SEWERAGE INFRASTRUCTURE	OTHER RIVER ACTIONS	TOTAL
₹23,114.41 crore	₹5,950 crore	₹29,064.41 crore

Cost estimates and scope are as stated in the source; detailed DPRs and funding eligibility will determine final allocations.

5. Other Pollution Abatement & River Rejuvenation

Proposed allocations across complementary interventions

Industrial pollution abatement

₹2,000 Cr

Ghats & riverfront development

₹500 Cr

Afforestation & biodiversity conservation

₹1,000 Cr

Floodplain wetlands & water conservation

₹1,000 Cr

Rural sanitation: liquid & solid waste

₹1,000 Cr

Water-quality monitoring & institutional infrastructure

₹100 Cr

11 River Basin Management Plans

₹100 Cr

District Ganga Committees

₹50 Cr

Communication & public outreach

₹100 Cr

State PMU & district-level PMC

₹100 Cr

Total: ₹5,950 crore

6. Implementation Priorities & Expected Outcomes

Integrated basin-level action across urban and rural areas.

01 **Sewerage infrastructure**
Expand collection, treatment and safe disposal/reuse.

02 **Industrial pollution control**
Strengthen effluent management and compliance monitoring.

03 **Riverfronts & ghats**
Improve key religious and public river locations.

04 **Nature-based restoration**
Protect forests, biodiversity, floodplains and wetlands.

05 **Rural sanitation**
Address liquid and solid waste in basin settlements.

06 **Monitoring & governance**
Map drains/STPs/CETPs; strengthen institutions and basin plans.

EXPECTED OUTCOMES

- CLEANER RIVERS
- HEALTHIER ECOSYSTEMS
- BETTER PUBLIC HEALTH
- SUSTAINABLE DEVELOPMENT

Government of
Madhya Pradesh

NAMAMI GANGE PROGRAMME / MADHYA PRADESH

REJUVENATE
THE GANGA BASIN

A coordinated, long-term programme for clean rivers, resilient ecosystems and sustainable communities in Madhya Pradesh.
