Urban Greenery
Will Expand Across Cities

Greener Cities | Healthier Lives | A Sustainable Tomorrow

- **New green spaces** will be developed in cities and surrounding areas.
- **City forests** will be developed on vacant government land.
- Plants will be selected according to local climatic conditions.
- Trees and green spaces will be protected and conserved.
- Your city will have its own **'Nagar Van'** (City Forest).
- At least one city forest will be developed in every Urban Local Body (ULB) across the state.
- Tree-less hills around cities will also be transformed into green spaces.

Central Parks to Be Developed in Four Major Cities

- Central parks will be developed in **Bhopal, Indore, Jabalpur** and **Gwalior**.
- Each Park will cover a minimum area of **10 acres**.
- An allocation of up to **₹5 crore** will be made for each park.

Ujjain to Turn Greener Ahead of Simhastha 2028

- Green development initiatives will be undertaken with Simhastha 2028 in view.
- The city's green landscape will be expanded and enhanced.

Greener Today for a Better Tomorrow

नमो हरित नगर योजना

Tree Plantation Along Roads

- Trees will be planted along roads.
- Green belts will be developed along rivers and lakes.
- Irrigation and rainwater harvesting facilities will be established.

Citizens to Become Partners in Greening Initiatives

- Nurseries will be developed in at least **five Urban Local Bodies**.
- Local residents will also be able to participate in tree plantation.
- Plants will be made available to citizens at **affordable prices**.
- Self-Help Groups (SHGs) will also be involved in these initiatives.

Together for Greener Cities

'Nagar Van Mitra' to Be Created

- Nagar Van Mitra's will be developed to encourage public participation in urban greening.
- The target is to develop city forests and green spaces on a minimum area of **0.5 acres**.
