Participation for Prosperity

A New Vision For Development

Inspired by the Hon'ble Prime Minister Shri Narendra Modi Ji's vision of "Participation for Prosperity" and under the leadership of the Hon'ble Chief Minister of Madhya Pradesh, Dr. Mohan Yadav Ji, the State is promoting the Public-Private Partnership (PPP) model as a key driver of development.

This initiative aims to combine public resources with private sector expertise, investment, and innovation to create modern, high-quality, and sustainable infrastructure across Madhya Pradesh.

Asset Management Division

vision

To transform public assets and municipal resources into sustainable sources of urban investment, infrastructure development and revenue.

Objective

- Develop MPUDC as a platform for PPP-led urban infrastructure and asset monetization.
- Strengthen financial sustainability of ULBs through better asset utilization, revenue enhancement and innovative financing.
- Facilitate private investment while ensuring transparent, value-for-money and public-interest oriented development.

KEY WORK TO BE DONE

- Develop at least one PPP project in every municipality, preferably through asset monetization
- Identify and commission at least one Redensification Policy project in every Municipal Corporation
- Amend Bhumi Vikas Nıvam, 2012, as required for enabling urban development and investment
- Improve Property Tax coverage and collection efficiency; rationalize User Charges and ensure regular collection
- Create new revenue streams through smart parking, digital services and municipal services.
- Geo-tag government assets and create a comprehensive digital asset inventory
- Utilize vacant land, buildings and other public properties through rental/concession arrangements
- Use UCF, SASCI, CSR, Green Bonds and other innovative financing mechanisms. Provide Transaction Advisory, financial structuring, financial closure, concessionmonitoring and dispute-resolution support
- Form a new PPP company under MPUDCL to drive urban infrastructure and service delivery.

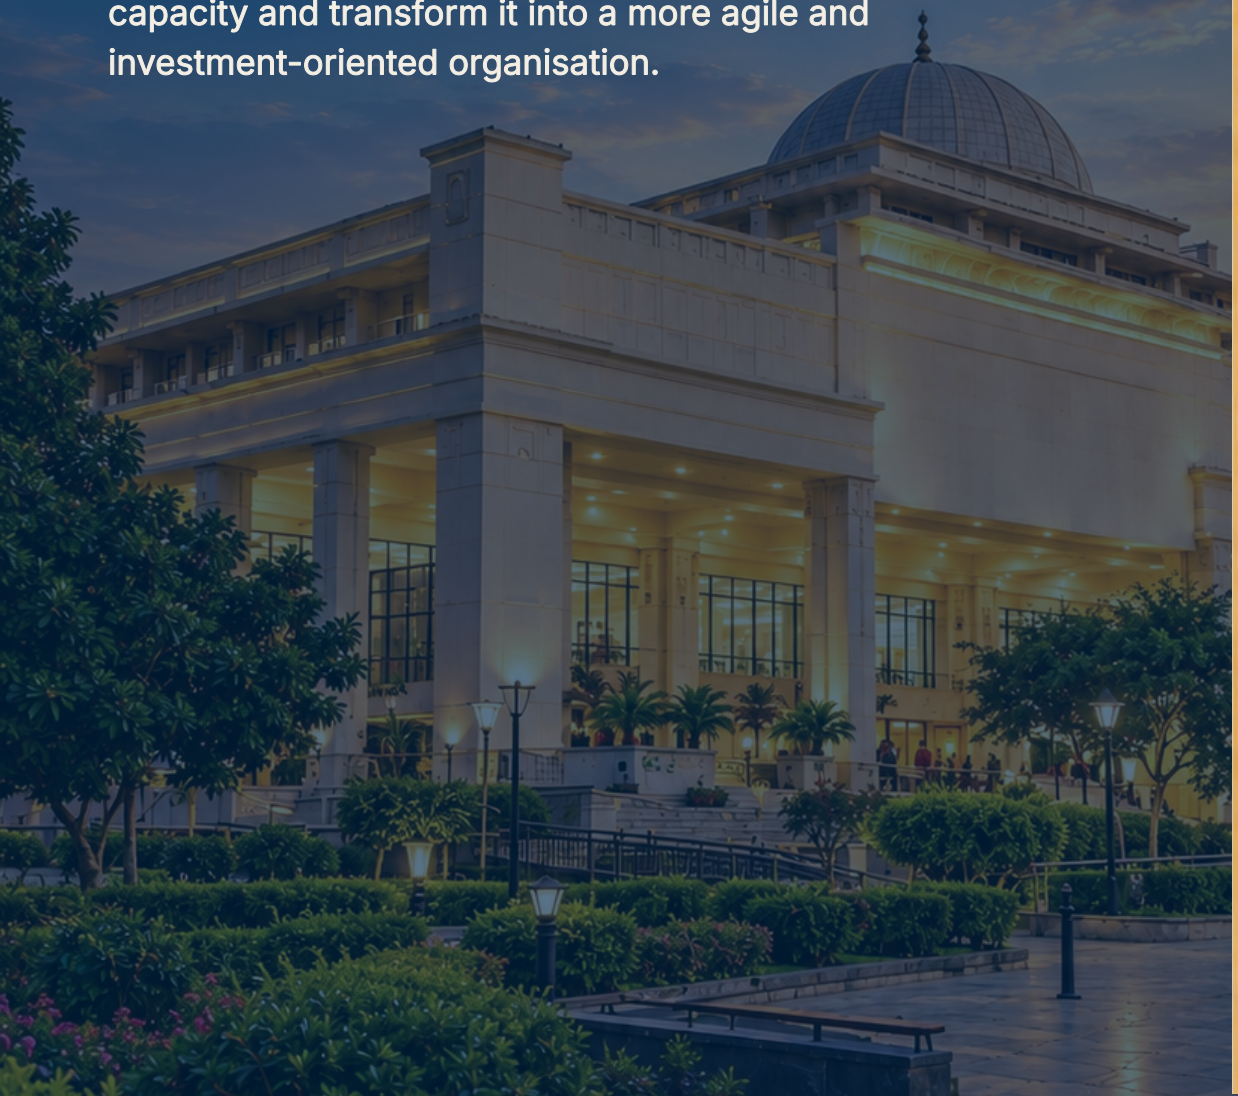

Strengthening MPUDC

through Institutional Reorganisation

As part of its organisational restructuring, Madhya Pradesh Urban Development Company Limited (MPUDC) has established the Asset Management / PPP Independent Business Division.

The division will play a pivotal role in improving project-management, optimising the utilisation of public assets, attracting private investment, and establishing transparent, efficient, and result-oriented operational mechanisms.

This strategic initiative will strengthen MPUDC's institutional capacity and transform it into a more agile and investment-oriented organisation.

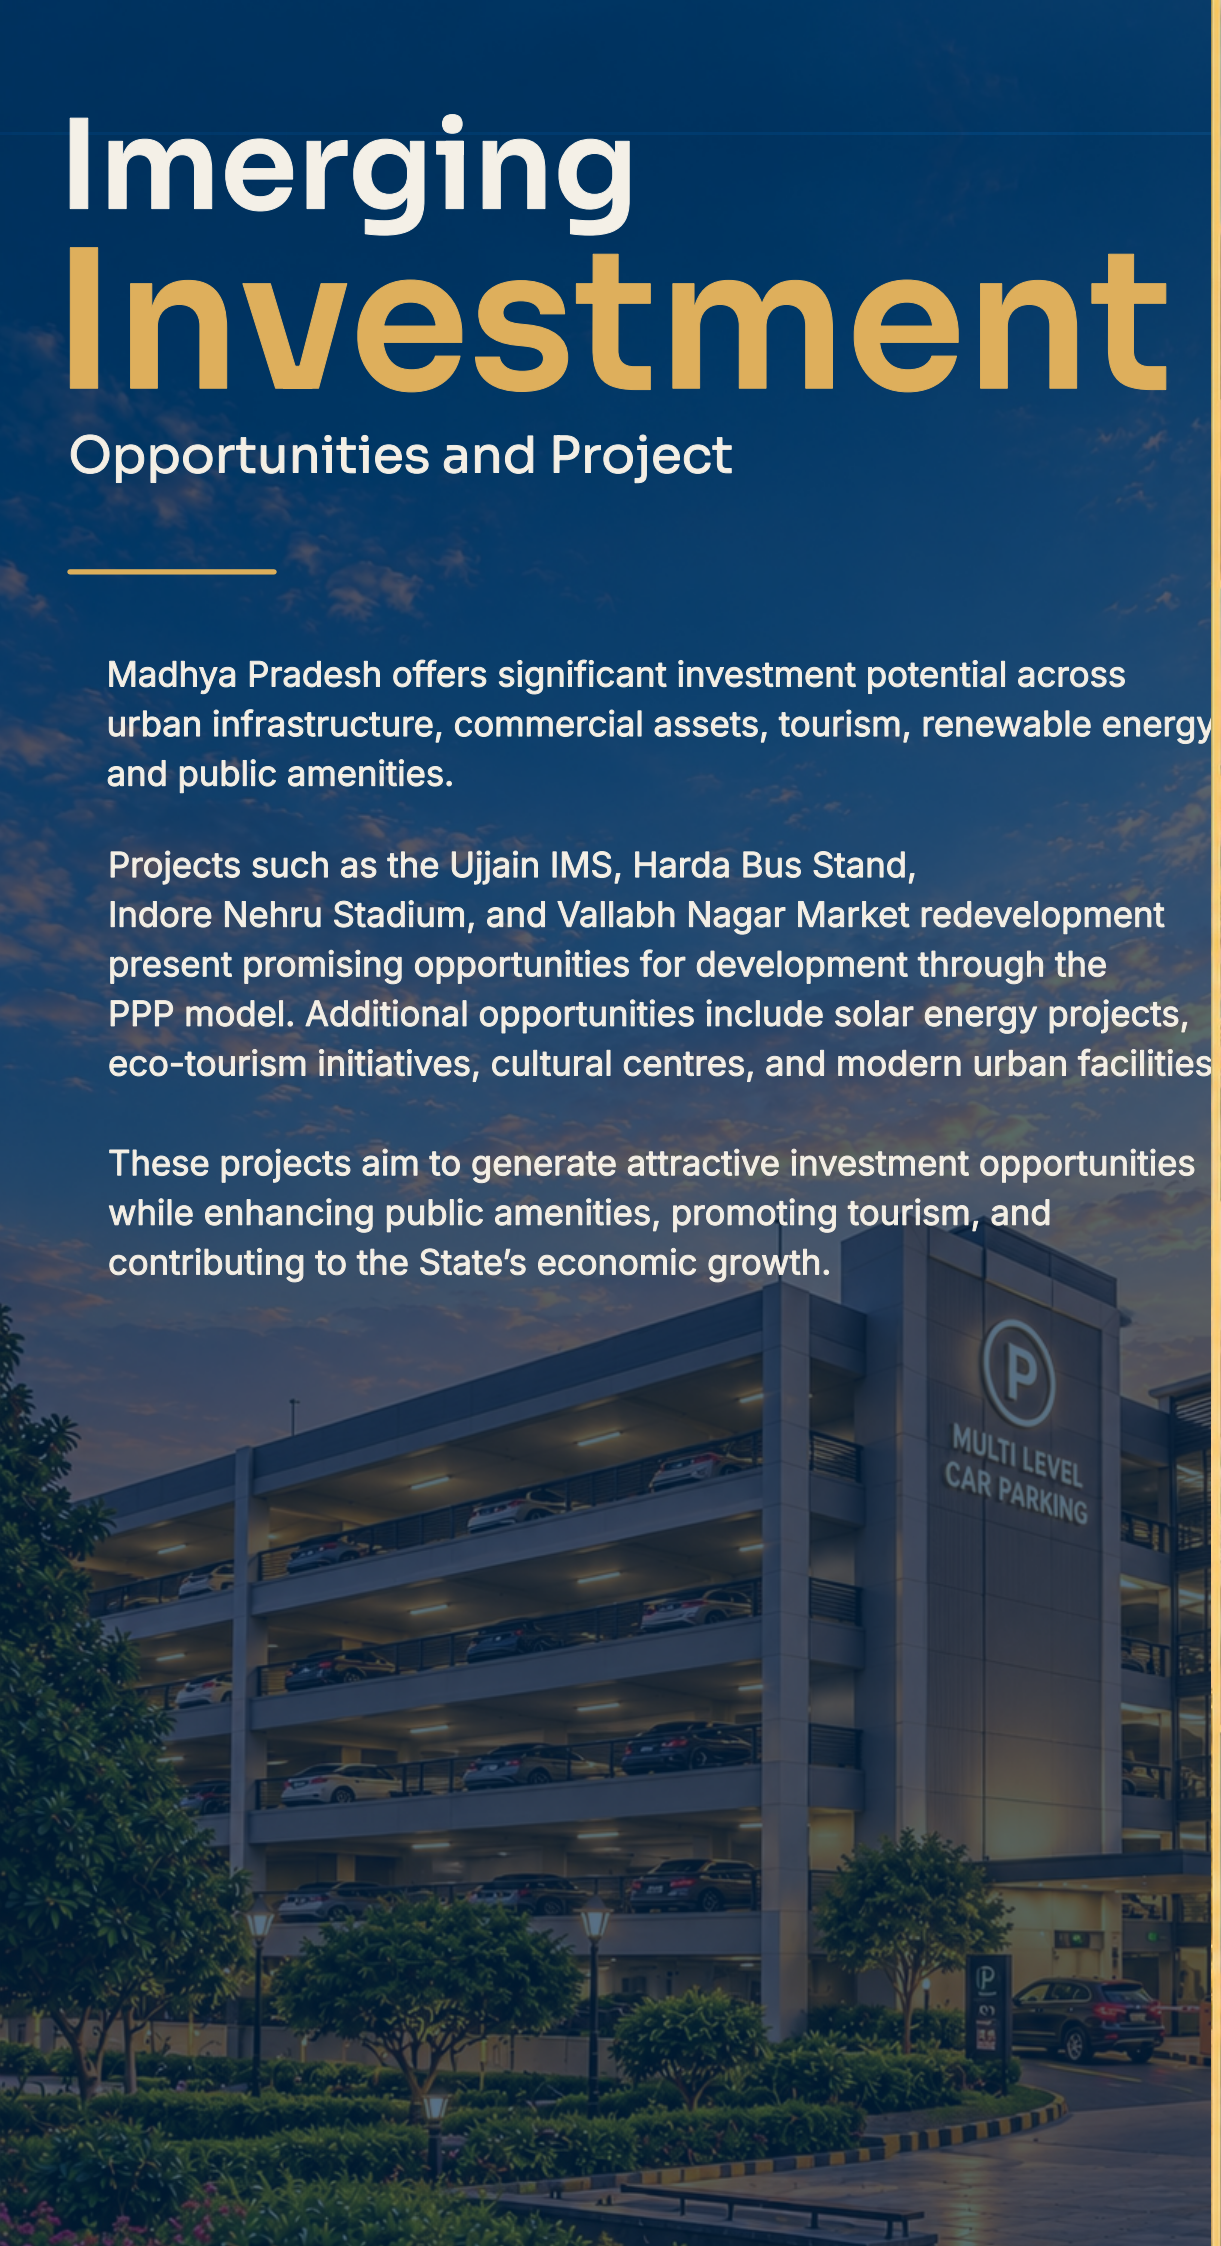

Imerging Investment

Opportunities and Project

Madhya Pradesh offers significant investment potential across urban infrastructure, commercial assets, tourism, renewable energy and public amenities.

Projects such as the Ujjain IMS, Harda Bus Stand, Indore Nehru Stadium, and Vallabh Nagar Market redevelopment present promising opportunities for development through the PPP model. Additional opportunities include solar energy projects, eco-tourism initiatives, cultural centres, and modern urban facilities.

These projects aim to generate attractive investment opportunities while enhancing public amenities, promoting tourism, and contributing to the State's economic growth.

Assets Monetisation & Integration

Of financial Resources.

The division will promote effective utilisation and monetisation of existing public assets to generate sustainable revenue and unlock their economic potential.

Assets such as guest houses, multi-level parking facilities, commercial complexes, and other urban infrastructure will be explored for investment-led development.

Furthermore, initiatives and funding avenues such as SASCI, the Urban Challenge Fund, CSR, the Chief Minister's Infrastructure Scheme, and City Logistics Plans will be coordinated to strengthen financial resources and accelerate the implementation of urban development projects.

Building a Developed Madhya Pradesh

India's Growth Engine

Strong collaboration between the government and the private-sector will unlock new opportunities in water management, energy, solid and liquid waste management, real estate, and urban infrastructure.

Policy stability, transparent processes, and an investor-friendly environment will encourage investment, generate employment, and strengthen economic activity across the State

The Asset Management / PPP Division of MPUDC will serve as a strategic catalyst in advancing Madhya Pradesh towards modernisation, self-reliance, and sustainable urban development.
